

Heavy Duty Tensioners

- 49501 (Dayco 89409) - \$127.95
- 49515 (Dayco 89404) - \$135.55
- 49521 (Dayco 89406) - \$147.95
- 49522 (Dayco 89437) - \$142.50
- 49528 (Dayco 89417) - \$276.50
- 49547 (Dayco 89437) - \$77.85
- 49550 (Dayco 89435) - \$124.95
- 49581 (Cummins 3973819) - \$84.95
- 49112 (Dayco 89102) - \$33.50 (pulley only)
- 49113 (Dayco 891030) - \$36.50 (pulley only)

Gatorback® Heavy Duty Tensioners

What They Do

Automatic tensioners are typically engineered for each application so that the belt remains at nearly constant tension throughout the entire operating range. This ensures maximum accessory drive component life, while still preventing belt slip. Tensioners also help to dampen normal vibrations caused by the intermittent piston firing sequence within an engine. Gatorback's® patented "noose-ring" frictional damping system helps absorb these vibrations resulting in less tensioner arm movement and belt stress. Automatic belt tensioners generally do not require service and will self-adjust for normal belt elongation. Each Gatorback® tensioner is application specific and engineered so that the belt tension, damping and amount of belt take-up are ideal for the recommended application.
